## HOW CAN I HELP?

The Northern Community Food Security Team (NCFST) was created to develop and launch a viable food security plan for northern Wake County that aligns with the CAFN plan. The Wake Forest Board of Commissioners charged NCFST with enlisting community members, food security organizations, resource experts, and other stakeholders to develop activities, policies, and partnerships that will move the county towards food security and a sustainable food future. We meet quarterly and anyone is welcome to attend.
